Session Program

May 14 – 17, 2018

InterPore2018 New Orleans

Parallel 4-A

New Orleans

Tue, May 15

11:15 AM

Parallel 4-A

Session | **Location:** New Orleans

11:17 – 11:32 AM

Mathematical model of kinetic mass transfer and transport of CO2 in shallow subsurface

Speaker
Jakub Solovský

11:35 – 11:50 AM

Sensitivity of bare non-vegetated soil moisture dynamic simulations to prescribed soil-atmosphere interface boundary condition forcings

Speaker
Dr Tissa Illangasekare

11:53 AM – 12:08 PM

Unified presentation and comparison of various formulations of the phase stability and phase equilibrium calculation problems

Speaker
Tomáš Smejkal

12:11 – 12:26 PM

Novel bio-organoclay composites designed to seal leaking wellbores

Speaker
Andres Clarens

12:29 – 12:44 PM **Empty oral slot**

12:45 PM
