Session Program

May 14 – 17, 2018

InterPore2018 New Orleans

Parallel 3-G

New Orleans

Tue, May 15

9:30 AM

Parallel 3-G

Session | **Location:** New Orleans

9:32 – 9:47 AM

Novel finite-volume methods for anisotropic linear elasticity and poromechanics problems with full tensors

Speaker
Prof. Hamdi Tchelepi

9:50 – 10:05 AM

Higher order multipoint flux mixed finite element methods on quadrilaterals and hexahedra

Speaker
Ivan Yotov

10:08 – 10:23 AM

Modeling of Additional Oil Recovery Processes by Low Salinity Water Injection using the Open Source Software Platform DUNE-DUMUX

Speaker
Dr Martin A. Diaz-Viera

10:26 – 10:41 AM

Multiresolution Coupled Compositional Vertical Equilibrium Model for Fast Flexible Simulation of CO2 Storage

Speaker
Dr Olav Møyner

10:44 AM
