

# InterPore2018 New Orleans

## Wednesday 16 May 2018

### Parallel 7-D (11:15-12:45)

time	[id] title	presenter
11:17	[799] The Control of Wettability for a Micror-Fluidic Channel using electrokinetic Technique and its Effect on Externally Measured Pressures	ZHOU, Xuhui
11:35	[887] Wetting, disorder, and pattern formation	PAHLAVAN, Amir
11:53	[330] Pore-scale Investigation of Solvent Based Bitumen Recovery	QI, ZhenBang
12:11	[398] Connecting microfluidics experiments and pore network modeling in understanding multiphase flows in porous media	Ms JEON, Min-Kyung
12:29	Empty oral slot
