INTER PORE - INTERNATIONAL SOCIETY FOR POROUS MEDIA

Founded in 2008 as a non-profit independent scientific organization, InterPore aims to advance and disseminate knowledge for understanding, describing, and modelling natural and industrial porous media systems.

OUR MISSION

Our mission is to act as an international platform for researchers who are actively involved in studying, developing and/or manufacturing complex porous media.

This may include, but is not limited to, experimentation in the field, lab, or on the computer, theory and computational algorithm development, property optimization and uncertainty quantification.

Porous media are ubiquitous throughout nature and is of relevance in technology development and industry. Investigators from many fields of science and technology are involved with the study and use of porous media. This is why our society was born: to provide a venue and a forum where investigators and technicians from disparate fields, working with porous media, can come together and display their commonality of problems, investigatory techniques and solution strategies. The International Society for Porous Media was formed to address this need.

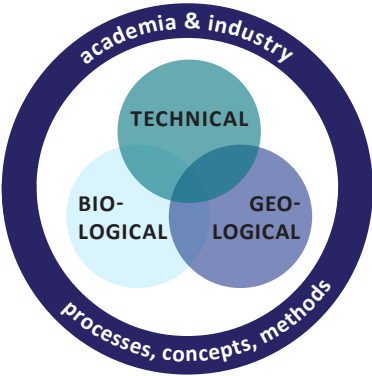

© PProGRes/UGCT, Ghent University, Belgium

KEY AIMS OF THE SOCIETY

- To facilitate exchange and collaboration among industry and academic researchers
- To bring theoreticians, modellers and experimentalists in the field of porous media together in order to provide a forum for exchanging ideas and expertise for the improvement of porous media models
- To identify and address research questions that will lead to major improvements to the theories and models of complex porous media
- To assist in establishing strategic research priorities of major funding agencies on national and international levels
- To promote collaborative research among partners and to facilitate the establishment of joint research projects
- To facilitate training and education

© Pore-scale Modeling Consortium, Imperial College London

WHY BECOME A MEMBER ?

InterPore is a unique platform that connects researchers, educators and practitioners from diverse porous media fields. Members exchange scientific knowledge and engineering expertise between academia and industry, enabling the development of collaborations, accelerating learning and facilitating innovation.

MEMBERSHIP BENEFITS

SAVE MONEY WITH DISCOUNTED RATES EXCLUSIVELY FOR INTERPORE MEMBERS:

- Reduced registration fee (up to 20%) for InterPore conferences, workshops, and short courses
- Significant reduction on the exhibition fee during the InterPore Annual Meeting
- 15-25% reduction on the fee for sponsoring InterPore Conferences
- 20% discount on the list price of all books published by Springer and by Begell House Inc.
- 20% discount on the individual subscription price of Transport in Porous Media (Springer)
- 75% discount on the individual online subscription price of Special Topics and Review in Porous Media and Journal of Porous Media (Begell House Inc.)

FOR MEMBERS ONLY:

- Recognition of top scientists and students through prestigious awards and prizes
- Participation in InterPore elections (for president-elect and Council members)
- Access to online courses and video recordings from short courses
- A forum for posing technical or scientific questions to other members
- Job announcements and recruiting opportunities
- Conference grants for scientists from economically-disadvantaged countries and students

INTERPORE ALLIANCE WITH INTERNATIONAL CONFERENCES:

- Allows members to pay significantly lower fees

EXPAND YOUR PERSONAL NETWORK:

- Attend InterPore conferences and events to meet other researchers and exchange ideas with international leaders in porous media science

STAY UP TO DATE WITH THE BIWEEKLY INTERPORE NEWSLETTER:

- Updates about new developments, meetings, community news, short courses, job opportunities, etc.
- Use the InterPore Newsletter to disseminate your work in research spotlights, publish your job announcements or advertise your workshops.

PUBLICITY SERVICES EXCLUSIVE TO INSTITUTIONAL MEMBERS:

- Publication of a self-introduction text in the InterPore NewsLetter
- Publication of a Research Spotlight in the InterPore NewsLetter and on the website
- Improved exposure to the public on our website...

REGISTER ONLINE OR SIMPLY CONTACT US

MEMBERSHIP FEES

The membership of the society consists of individuals and/or legal entities interested in the objectives of the organization, from any country or profession. Upon filling in the application form and becoming a member, one implicitly agrees to accept the bylaws of the society (www.interpore.org/about-interpore/bylaws) . Current classes of membership and the corresponding annual membership fees are as follows:

INDIVIDUAL MEMBERSHIP

- Academic 1 year 60 €
- Academic 2 years 100 €
- Academic 3 years 145 €
- Student 30 €
- Retired 35 €
- Industry (not SME*) 200 €
- Industry (SME*) 80 €

LIFETIME MEMBERSHIP

- < 40 years 840 €
- 40 to 45 years 720 €
- 46 to 50 years 600 €
- 51 to 55 years 480 €
- 56 to 60 years 360 €
- > 61 years 240 €

INSTITUTIONAL MEMBERSHIP

- Academic 600 €
- Academic 2 years 1100 €
- Academic 3 years 1500 €
- Academic 5 years 2400 €
- Industry (not SME*) 2000 €
- Industry (SME*) 840 €
- Industry (SME*) 2 years ... 1500 €
- Industry (SME*) 3 years ... 2100 €
- Industry (SME*) 5 years ... 3400 €

*SME- small and medium enterprises

INTERPORE CONFERENCES

Every year, InterPore organizes the International Conference on Porous Media and the Annual Meeting of InterPore. The first conference was held in 2009 in Kaiserslautern, Germany, with around 80 participants. The conference has now grown to a major event with more than 700 participants.

The main goal of the conference is to bring together researchers from all areas of porous media science and technology development, particularly people who do not have the opportunity to meet in other single discipline-oriented conferences.

© InterPore 2017 Conference: poster session

© InterPore 2017 Conference: gala dinner

InterPore thus offers a platform for people from diverse disciplines who study and work with porous media, so that they can exchange ideas and become aware of one another’s interests and research activities. General themes are: fundamentals of porous media; computational challenges in porous media simulation; experimental studies, and applications involving porous media.

CORE ELEMENTS OF THE INTERPORE CONFERENCE ARE:

© InterPore 2017

INTERPORE SCIENTIFIC PROGRAM

The scientific program will cover most porous media subjects, including:

- Imaging, modelling and simulation
- Monitoring & characterization methods
- Experimental & simulation methods
- Uncertainty quantification & risk analyses
- Forward & inverse modelling

for pore-scale, lab-scale and field-scale academic, environmental and industrial problems.

Presentations will be given on a wide variety of porous media processes in very diverse applications, such as: **Geological reservoirs, Soil, Food, Wood, Biological tissues, Filters, Membranes, Paper and textiles**
High-quality and lively Poster Presentation Sessions and Exhibitions.

INTERPORE ANNUAL MEETING

A major event of the conference, where the status of the Society and major developments and plans are presented to the members.

INTERPORE AWARDS

- With the support of InterPore Foundation, the following awards are presented during the conference:
- InterPore Honorary Lifetime Membership Award
 - Kimberly-Clark Distinguished Lectureship Award
 - Procter & Gamble Award for Thin and Swelling Porous Media Research
 - InterPore Award for Excellence in Porous Media Research
 - PoreLab Award for Young Researchers
 - Rien van Genuchten Early-Career Award of Porous Media for a Green World

In addition, the InterPore Procter & Gamble Student Poster Awards are presented during the closing ceremony of the conference.

© InterPore 2016

© InterPore 2015

INDUSTRIAL EXHIBITION

Manufacturers of imaging and measurement instruments, visualization and analysis software, as well as porous media publishers present their products.

INTERPORE CONFERENCES - LOCATIONS

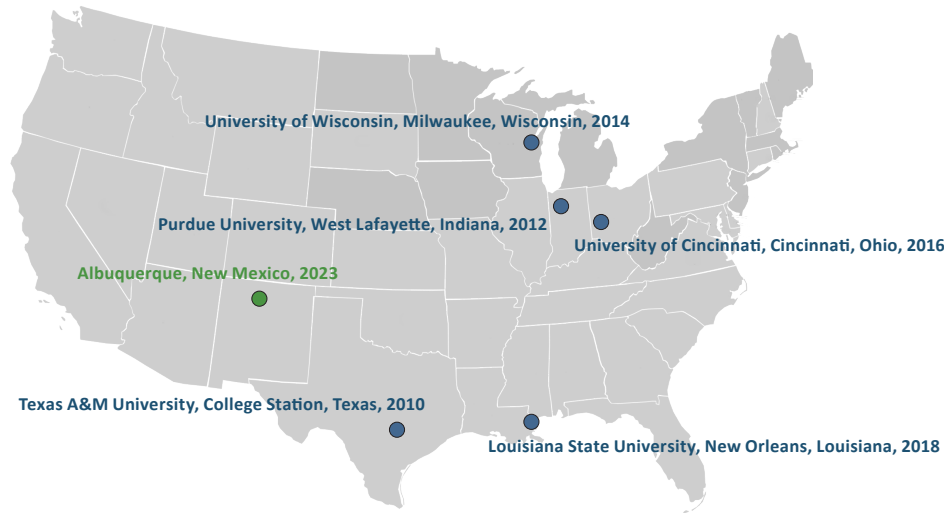

The conference is held annually. Members all over the world can apply to become the host of InterPore’s annual event or regional meetings.

For more details please contact: info@interpore.org
Porous Media companies and institutions are invited to sponsor InterPore.

WE THANK ALL OUR HOSTS FOR SUCCESSFUL INTERNATIONAL CONFERENCES ON POROUS MEDIA & OUR ANNUAL MEETING:

INTERPore FOUNDATION & AWARDS

InterPore Foundation for Porous Media Science and Technology is a non-profit, non-governmental, independent organization. It was founded by the International Society for Porous Media in 2016.

OUR MISSION:

- To support and promote the dialog between public and private scientific communities
- To support educational and outreach activities of the InterPore society
- To finance awards for innovative research in the field of porous media
- To honour distinguished researchers and lecturers in terms of excellence and diversity.
- To help the participation of young talented scientists, from countries with financial difficulties, at international Interore gatherings.
- To boost the visibility of young scientists at the international level.

Our activities rely on the contributions from our institutional and individual donors. Donations can be made via our website:

<https://www.interpore.org/foundation>

CURRENT BOARD OF DIRECTORS:

From left to right: **Steffen Berg** (Shell Global BV, The Netherlands) – *Chair*; **Peter Eliker** (Kimberly-Clark) – *Vice Chair*; **Azita Ahmadi** (ENSAM, I2M, University of Bordeaux) – *Treasurer*; **S.Majid Hassanizadeh** (Utrecht University) – *Secretary*; **Noushine Shahidzadeh** (University of Amsterdam) – *Communication Officer*; **Andrea Peri** (Procter & Gamble) – *Communication Officer*

Supporting educational and outreach activities of InterPore

Honouring distinguished researchers and lecturers

Sponsoring InterPore conference grants

INTERPore FOUNDATION AWARDS:

INTERPore HONORARY LIFETIME MEMBERSHIP AWARD

This Award is reserved for individuals who have made extraordinary contributions to porous media science and technology, who are world renowned in porous media research, and have an outstanding record in serving the porous media community. It will be given to only one individual per year. Nominations of truly outstanding candidates are solicited from all branches of porous media science and technology, highlighting the most important achievements of the candidate and making clear his or her contributions to the advancement of the ideals and aims of InterPore.

KIMBERLY-CLARK DISTINGUISHED LECTURESHIP AWARD

The award is funded through a generous grant provided by Kimberly-Clark Corporation to the Foundation. Every year, an award committee will select a prominent porous media scientist, through a nomination procedure, to present the lecture during the following calendar year. The awardee will present the lecture at various member and non-member industrial and academic organizations.

THE INTERPore AWARD FOR POROUS MEDIA RESEARCH

The InterPore Award for Porous Media Research (formerly Procter & Gamble Award for Thin and Swelling Porous Media Research) is given to mid-career researchers in recognition of outstanding research in general porous media, with emphasis on research conducted over the past 5 years. The nominees should as a maximum have up to 12 years research experience after completing their PhD and **Nominee and nominator must be members of InterPore.**

THE INTERPore MEDAL FOR POROUS MEDIA RESEARCH

The InterPore Medal for Porous Media Research (formerly InterPore Award for Excellence in Porous Media Research) is given to researchers with an established career in recognition of outstanding research in general porous media, with emphasis on research conducted over the past 10 years. Nominee and nominator must be members of InterPore.

PORELAB AWARD FOR YOUNG RESEARCHERS

InterPore, on behalf of PoreLab, a center of excellence jointly formed by the Norwegian University of Science and Technology (NTNU) and the University of Oslo, grants an award to a young researcher in recognition of outstanding contributions in the field of porous media from a fundamental point of view. The research may be theoretical, computational, or experimental. Nominees must be **PhD students or Postdoc researchers** who obtained the PhD degree no longer than 3 years before the award nomination deadline.

RIEN VAN GENUCHTEN EARLY-CAREER AWARD OF POROUS MEDIA FOR A GREEN WORLD

Created with a generous donation by Dr. Betty-May Pontedeiro, this award is given to an early-career researcher with the general topic of “porous media research for a green world” as a main focus. Nominations for those who have contributed outstanding theoretical, experimental and/or modelling advances on natural or industrial porous media from fundamental and/or applied aspects addressing major soil, hydrologic and/or environmental problems facing our Planet are strongly encouraged. The award will be given annually to a person with at most three years of experience after receiving his/her PhD (not including the year of the award) and is preferentially intended for young researchers from countries with low- or middle-income economies as defined by the World Bank.

PROCTER & GAMBLE STUDENT AWARD

Up to two awards will be given each year in recognition of outstanding student poster presentations at the annual InterPore conference. The Award is limited to bachelor, master and Doctoral students who personally present a poster on research that has been carried out during their studies. To be considered, the nominee must currently be a student or must have completed her/his degree within one year of the InterPore conference. All topics relevant to the mission of InterPore and to the study of flow in porous media will be eligible for this student award. Nominations should be submitted by the supervisor of the student or a collaborator.

INTERPORE ORGANIZATION

The Society is a non-profit-making independent scientific organization. The Council as supervisory and consulting organ, comprises members of the Executive Committee (President, President-Elect, Past President, Managing Director, and Treasurer) and ordinary members, elected in equal numbers from industry and academia including a student representative, according to rules set down in the Bylaws.

The Executive Committee, comprising of the President, the President-Elect, the immediate Past President, the Managing Director and the Treasurer, is in charge of the Society operations. It is supported by a number of officers and committees.

INSTITUTIONAL MEMBERS (AMONG NATIONAL CHAPTERS)

Mexican National Chapter

NATIONAL CHAPTERS

InterPore cordially invites the porous media communities of all countries to form national chapters.

National chapters offer elevated visibility, improved local and global networking, platforms for joint workshops and many other benefits. In addition, InterPore provides developing countries the possibility of an institutional membership at a reduced rate*.

To date, national chapters have been formed in over a dozen countries...

... with several more in the process of formation: Austria, Sweden & Canada.

* Institutional membership fee has to be negotiated in each specific case
