

Session Program

30 May 2022 to 2 June 2022

InterPore2022

MS16

Monday 30 May

16:20

MS16: Parallel Oral Session 3F

Session

16:20-16:35

Inkjet printing of surfactant solutions onto thin moving porous media

Speaker

Anton Darhuber

16:35-16:50

Surface-washing of contaminated porous substrates

Speaker

Dr Francesco Paolo Conto'

16:50-17:05

Capillary imbibition and swelling of thin paper sheets

Speaker

ruben nicasy

17:05-17:20

Application of Screen Channel Liquid Acquisition Devices for Phase Separation in Microgravity

Speaker

Mrs Prithvi Shukla

17:20-17:35

A Review on Polymer Adsorption in Carbonate and Sandstone Reservoirs

Speaker

Anoo Sebastian

17:35-17:50

Absorption of surfactants on porous media: Method development and Numerical prediction of surfactant distribution

Speakers

Mr Helder Salvador, Herman Wijshoff

17:50-18:05

A One-Dimensional Numerical model of Carbon Corrosion in Catalyst Layers of Proton Exchange Membrane Fuel Cells

Speaker

Dong Enci

18:05
