

## Session Program

May 30, 2022 to June 2, 2022

# InterPore2022

## MS21

# Mon, May 30

10:50 AM

## MS21: Parallel Oral Session 1D

### Session

10:50 - 11:05 AM

#### **The role of birefringent strands on the stability of viscoelastic flows through porous media**

**Speaker**

Omar Mokhtari

11:05 - 11:20 AM

#### **Elastic flow instabilities in 3D porous media**

**Speaker**

Sujit Datta

11:20 - 11:35 AM

#### **Some analytical results about countercurrent capillary imbibition.**

**Speaker**

Dr benoit Noetinger

11:35 - 11:50 AM

#### **Ganglia mobilization by purely elastic instability**

**Speaker**

pegah shakeri

11:50 AM - 12:05 PM

#### **Two-phase non-Newtonian flow in porous medium**

**Speaker**

Federico Lanza

12:05 - 12:20 PM

#### **The anomalous moisture transport in cementitious materials: causes and models**

**Speaker**

Zhidong Zhang

12:20 PM
