MS19: 2.1 (10:55 - 11:55)

time	[id] title	presenter
10:55	[58] Electrical response during drying and imbibition of mesoporous materials.	Mrs LISEANSKAIA, Mariia
11:10	[116] Main controlling factors and pore structure of low resistivity shale	LENG, Yijiang
11:25	[120] Elastic indication of fluid patch clustering in partially saturated porous media: critical saturation model	Dr LIU, Qiang
11:40	[858] Analyzing uncertainties of the instability of the anode /electrolyte interface in solid state batteries	DIA, Ben Mansour
