MS21: 1.2 (13:25 - 14:55)

time	[id] title	presenter
13:25	[184] Wave-mediated diffusion model for semi-sealed systems: effective diffusion coefficient and experimental validation	WEI, Shiming
13:40	[334] Non-linear growth of fingers during two-phase flow in porous media	Dr SINHA, Santanu
13:55	[430] Modeling Non-Newtonian Polymer Flooding in Heterogeneous Carbonate Rock: An Experimental and Simulation Investigation	Mr QI, Chuangchuang
14:10	[543] Incorporating Pore Size Distribution into Dynamic Permeability Modelling for Porous Media	Dr LI, Jimmy Xuekai
14:25	[586] Universal scaling law of bubble dissolution in porous media	YU, Yuehongjiang
