1st Iran InterPore Conference

Wednesday, 25 September 2024

Parallel Session 5: Hydrocarbon Recovery / Flow in Porous Media (09:45 - 10:45)

-Conveners: Shirin Samani

time	[id] title	presenter
	[44] Investigation of the effect of ultrasonic waves on the deposition of asphaltenes in porous media	Dr RAZAVIFAR, Mehdi
10:00	[46] Simulation of Single-Well Chemical Tracer Test (SWCTT) to Measure Residual Oil Saturation	RAMEZANI GHAHFAROKHI, Mostafa
	[49] Study the effect of fracture roughness on the relative permeability of a fractured porous medium using pore-scale simulations	REZAEI, Parsa
10:30	[32]	Mr NADERI, Mehrangiz
