

1st Iran InterPore Conference

Wednesday, 25 September 2024

Parallel Session 9: Geotechnique / Soil Mechanics (11:00 - 12:00)

-Conveners: Hossein MolaAbasi

time	[id] title	presenter
11:00	[55] Numerical study of the effect of spatial distribution of artificial rainfall on unsaturated flow in a finite soil slope	KHOSHOUEI ESFAHANI, Samin Sadat
11:15	[60] مقایسه خواص مکانیکی خاک‌های مختلف در شرایط مختلف رطوبتی و بررسی تاثیر پارامترهای مختلف بر روی خواص مکانیکی خاک	Mr GHOLAMI, Mostafa
11:30	[63] Numerical simulations and experimental study of saturated/superheated steam injection into unsaturated zone of soil	JANFADA, Taraneh
11:45	[64] Comparison of the geotechnical properties of wind-blown sand from the Mesr desert of Iran with three other uniform sands for use in laboratory research.	Mr JAFARZADEH, Fardin
